

ABDUL WAHED ILYAS

SOC Analyst | Cyber Security | IT Engineer

IQAMA TRANSFERABLE

Saudi Arabia

+966 53 871 1464

wahedilyasabdul@gmail.com

OBJECTIVE

Cybersecurity professional with over 1 year of professional work experience in SOC operations, network security, vulnerability assessment, and incident response. Skilled in using SIEM tools like Splunk for log analysis, threat detection, and monitoring. Strong understanding of Linux, Windows, and cloud environments, with practical knowledge of system hardening and ethical hacking techniques. Strong analytical and problem-solving skills with a passion for staying ahead of emerging threats.

PROFESSIONAL SKILLS

- SIEM: IBM QRadar, Splunk, LogRhythm
- Triage Security Alerts
- Threat Hunting
- Log Source Integration
- Incident Response
- Incident Documentation & Reporting
- Malware Analysis

WORK EXPERIENCE

SOC Analyst - Server & Network Security SAK Consultants Co.

AUG 2025 - PRESENT

- Monitor and analyze security events across networks, servers, and endpoints using SIEM (Splunk) and EDR.
- Perform 24/7 incident detection, triage, and root cause analysis, escalating confirmed threats to relevant teams.
- Develop and tune SIEM dashboards, alerts, and correlation rules to improve detection accuracy and reduce false positives.
- Integrate threat intelligence feeds to enhance threat detection capabilities.
- Conduct proactive threat hunting based on known attacker TTPs to identify stealthy threats.
- Perform malware analysis on suspicious files using static and dynamic techniques (VirusTotal, FileScan.io) to identify IoCs.
- Block malicious file hashes and investigate the full lifecycle of infections using EDR solutions.
- Support log source integration across Windows, Linux, firewalls, network, and security devices for comprehensive SOC visibility.
- Conduct vulnerability assessments and continuous security monitoring to strengthen defensive posture.
- - Document incidents, technical findings, IoCs, and mitigation steps in detailed incident reports and SOPs.

Cyber Security Analyst -Intern Indian Edu Programs

JAN 2025 - AUG 2025

- Conducted vulnerability assessments and documented risks with mitigation strategies.
- Monitored simulated security events and analyzed logs to detect potential threats.
- Configured firewalls, IDS/IPS tools, and Linux-based security setups.
- Assisted in penetration testing exercises to enhance threat detection processes.
- Monitor, analyze, and respond to security events using Splunk and SIEM tools. Tune alerts, dashboards, and correlation searches to improve threat detection and reduce false positives.

IT Security Trainee Indian Edu Programs

AUG 2024 - DEC 2024

- Designed and implemented secure cloud systems (MIOACSR) using cryptographic methods and secure coding practices.
- Conducted risk assessments and threat modeling for project use cases.
- Assisted in monitoring and analyzing security events to support proactive defense measures.

Technical Support Intern - Networking & Systems Google Cyber Security Internship

DEC 2023

- Secured network and system environments following industry best practices and hardening standards.
- Monitored and analyzed logs to detect threats and support incident response activities.
- Automated monitoring and alerting tasks using Python to enhance detection and response efficiency.

CERTIFICATIONS & COURSES

- Certified Ethical Hacker (CEH v13) – EC-Council | Jun 2025 – Aug 2025
- Network Security Operations Fundamentals – Palo Alto | Dec 2025
- Cybersecurity Assessment – Learn Tube
- Python Master Class – DevTown | May 2023

EDUCATION

MASTERS IN COMPUTER APPLICATIONS – CYBER SECURITY (Pursuing)
Amity University, India

BACHELOR OF ENGINEERING – INFORMATION TECHNOLOGY – (2021 – 2025)
ISL Engineering College, India

LANGUAGE PROFICIENCY

- English – Expert / Native
- Arabic - Intermediate
- Urdu / Hindi - Native
